<b>A</b>			
ABBOTT, ERNEST J.		Turboprop Installation Problems, F. Herbert Sharp	Jn 74
Why Not Quiet Those Trucks? .....	Jn 71	Wanted—A New Airplane, T. H. Davis .....	Oc 70
<b>ACCIDENTS AND ACCIDENT PREVENTION (AIRCRAFT)</b>			
Air Transportation and What Is the Technical Future, K. R. Ferguson .....	61	<b>AIRCRAFT ENGINES. See Engines, Aircraft</b>	
Government Responsibility in Aviation Safety, E. N. Morey .....	98	<b>AIRCRAFT ICING</b>	
Observations on Flight Safety, Jerome Lederer .....	71	Development of the Anti-Icing System for the J-47 Gas Turbine, B. F. Morrell and N. F. Frischhertz .....	43
Research and Development to Promote Safety in Aviation, T. P. Wright .....	Jn 35	Gas Turbine Icing Tests at Mount Washington, New Hampshire, P. M. Bartlett and T. A. Dickey .....	Jn 25
Some Developments for Safer Aircraft, A. L. Morse .....	29	<b>AIRCRAFT LANDING GEAR</b>	
<b>ACCIDENTS AND ACCIDENT PREVENTION (NONAIRCRAFT)</b>			
Design Changes as Safety Measure, Frederick N. Clarke .....	Ag 72	Lockheed Constitution Development Story, W. M. Hawkins Jr. and R. L. Thoren .....	Je 47
Engineering Safety into Automobile Bodies, Howard K. Gandelot .....	Jl 116	<b>AIRCRAFT MAINTENANCE</b>	
Relationship Between Maintenance and Motor Carrier Accidents, H. H. Allen and Louis Rezneck .....	Jn 75	Influence of Turbine Engines on Transport Operating Costs, J. G. Borger and R. W. Blake .....	Oc 100
Safety and Ease of Car Handling, J. J. Robson .....	Jl 38	<b>AIRCRAFT, MILITARY</b>	
Traffic Safety and the World We Live In, Sidney J. Williams .....	Mr 58	Development of Assault Transport and Troop Carrier Aircraft, Major Floyd J. Sweet .....	No 25
<b>ADDITIVES, OIL</b>			
Estimating Additive Depletion in Heavy-Duty Oils Used in Railroad Service, L. A. Wendt .....	Mr 34	<b>AIRCRAFT, PERSONAL</b>	
Fuel and Lubricant Requirements of Personal Plane Aircraft Engines, W. V. Hanley .....	Ap 49	Recommendations for Fuel System Design for Personal Aircraft with Regard to Vapor Lock, L. I. York, A. Hundere, and R. A. Coit .....	Fe 107
Heavy-Duty Oils in Railroad Diesel Engines, Wayne Lasky, M. A. Hanson, and H. E. Frank .....	Mr 34	<b>AIRCRAFT PROPELLERS</b>	
Series 2 Oils Pay Their Way, W. G. Brown, F. A. M. Buck, J. A. Edgar, F. E. Kronenberg, and J. M. Plantfeber .....	Je 63	Design and Operation of Gas Turbine Propellers, R. C. Treseder and D. D. Bowe .....	Ap 29
Some Frequently Forgotten Aspects of Today's Engine Fuel Problem, T. B. Rendel .....	Jl 118	<b>AIRCRAFT, ROTATING-WING</b>	
<b>AIR CONDITIONING</b>			
Lockheed Constitution Development Story, W. M. Hawkins Jr. and R. L. Thoren .....	Je 47	Helicopters Applied to Local Air Service Operation—British Experience and Requirements, N. E. Rowe .....	Oc 53
New Budd Diesel Railroad Car RDC with Torque Converter Transmission—The Car, Benjamin Labaree .....	Fe 18	Military Operation of Helicopters, Lt.-Col. K. B. McCutcheon .....	De 79
<b>AIRCRAFT ACCESSORIES AND EQUIPMENT</b>			
An Accessory Manufacturer's View of Field Service, Philip H. Emrich .....	Mr 68	Present Day Use of Helicopters, Charles R. Wood, Jr. .....	Ag 69
An Investigation of Hydraulic Damping, J. E. Campbell .....	My 105	<b>AIR REGULATIONS</b>	
How Large Can the Gaps Be? C. E. Swanson and J. W. Miller .....	Fe 32	Government Responsibility in Aviation Safety, E. N. Morey .....	Oc 98
Lockheed Constitution Development Story, W. M. Hawkins Jr. and R. L. Thoren .....	Je 47	Safety in Performance Operating Rules, R. B. Maloy .....	Jn 96
Smitsvonk Low-Tension Capacity Ignition System, W. Beye Smits and P. F. H. Maclaime Pont .....	Ap 61	<b>AIR TRANSPORT</b>	
Some Developments for Safer Aircraft, A. L. Morse .....	My 29	Air Transport Developments 1949–1950 and a View to the Future, R. Dixon Speas .....	My 41
<b>AIRCRAFT DESIGN AND PERFORMANCE</b>			
A Concrete Phase in the Development of the Load Detachability Principle in Aircraft, G. W. Lescher and J. A. Sterhardt .....	Fe 38	Air Transportation and What Is the Technical Future, Edward C. Wells .....	Jn 75
Application of Basic Research To Seaplane Design, John D. Pierson .....	Jl 42	Air Transportation and What Is the General Future, Frederick B. Lee .....	Ap 44
Development of Assault Transport and Troop Carrier Aircraft, Major Floyd J. Sweet .....	No 25	Air Transportation and What Is the Technical Future, K. R. Ferguson .....	Jn 61
Flight Characteristics of the Boeing B-47 Stratojet, Robert M. Robbins and William Cook .....	Se 69	Aircraft Ground Handling Characteristics as Required for Maximum Efficiency, James G. Ray .....	Oc 70
Flight Experience with Turbine Propeller Powered Aircraft, R. C. Loomis and E. D. Shannon .....	Oc 34	Freedom in Flight, Ralph S. Damon .....	Je 83
Helicopters Applied to Local Air Service Operation—British Experience and Requirements, N. E. Rowe .....	Oc 53	Fundamentals of Airlines Scheduling and Flight Equipment Routing after 1955, M. D. Warshaw .....	Mr 69
Operational Experiences with Multi-Engine Jet Aircraft, N. N. Davis and E. M. Beattie .....	Oc 19	Helicopters Applied to Local Air Service Operation—British Experience and Requirements, N. E. Rowe .....	Oc 53
Treatise on Experience—Review of Some Detail Design Experiences, W. W. Davies .....	Se 64	Local Service Aircraft and Engines Maintenance Requirements, Charles L. Baker .....	Oc 70
		Observations on Flight Safety, Jerome Lederer .....	My 71
		Operating Cost Characteristics of Local Air Service Operators, C. W. Wendt .....	No 77
		Passenger and Cargo Service Standards Required for Local Air Service, Mel Anderson .....	Oc 70
		<b>ALDEN, R. C.</b>	
		LP-Gas for Motor Fuel .....	Jl 22
		<b>ALLEN, H. H.</b>	
		Relationship Between Maintenance and Motor Carrier Accidents .....	Jn 75
		(Co-author Louis Rezneck)	
		<b>ALUMINUM AND ALLOYS</b>	
		A Modern All-Aluminum Body Development for Production, E. C. DeSmet, J. H. Dunn, E. J. Zulinski, and C. J. Schmidt .....	Je 35
		Where Do We Stand on Nonferrous Strategic Materials? Dr. Richard J. Lund .....	Je 18
